# OVERVIEW

## GE GROUP AUSTRALIA

GE Group Australia provides high quality engineering and management services to the mining, agricultural, marine and petrochemical industries throughout Western Australia.

We understand that every customer has different requirements so we work together to create solutions to exceed their expectations - on time and on budget.

We believe our growth is directly linked to our strong client relationships, our knowledge and experience and our promise to do the job safely every time, no matter what.

**Specialist knowledge,  
extraordinary outcomes  
and a solution for every  
industry.**

# ABOUT US

GE Group Australia, formerly known as Geraldton Engineering, was established in Geraldton in 2004 by Roger Watts. The initial aim was to provide a quality machining and fabrication shop to Geraldton and the surrounding Mid West region.

Ten years later the business has grown. With a new name and a more defined focus we have 45 full time employees and have developed into a high quality engineering service for the petrochemical, mining, agriculture and marine industries. We now service the Pilbara and Mid West regions with opportunities to expand further into regional Western Australia.

Our business has grown from a small fabrication and machining shop to providing services to some of the world's biggest companies. Our aim is to be the preferred provider of petrochemical and high quality engineering services to leaders in the mining, oil and gas industries.

Roger and his management team have over twenty years combined experience in the petroleum industry.

We are committed to providing quality service in a safe and healthy work environment and to produce products and workmanship which will more than satisfy our customers' needs and expectations.

# OUR SERVICES

## Machining

- Lathes capable of swinging 800mm (1200mm over gap) four metres between centres
- Horizontal boring
- Milling Machines
- 200t H frame press
- 100t portable press Enerpak
- 100t punch and shear machine

## Fabrication

- Welding - aluminium, magnesium, stainless steel, mig, tig, hard facing and build up
- Mobile welders
- Steel fabrication and construction
- Experienced coded welders
- Pipeline and pressure vessel welding

## Engineering & Construction

- Design and construct any project
- Work off detailed plans to create planned outcome

## Project Management

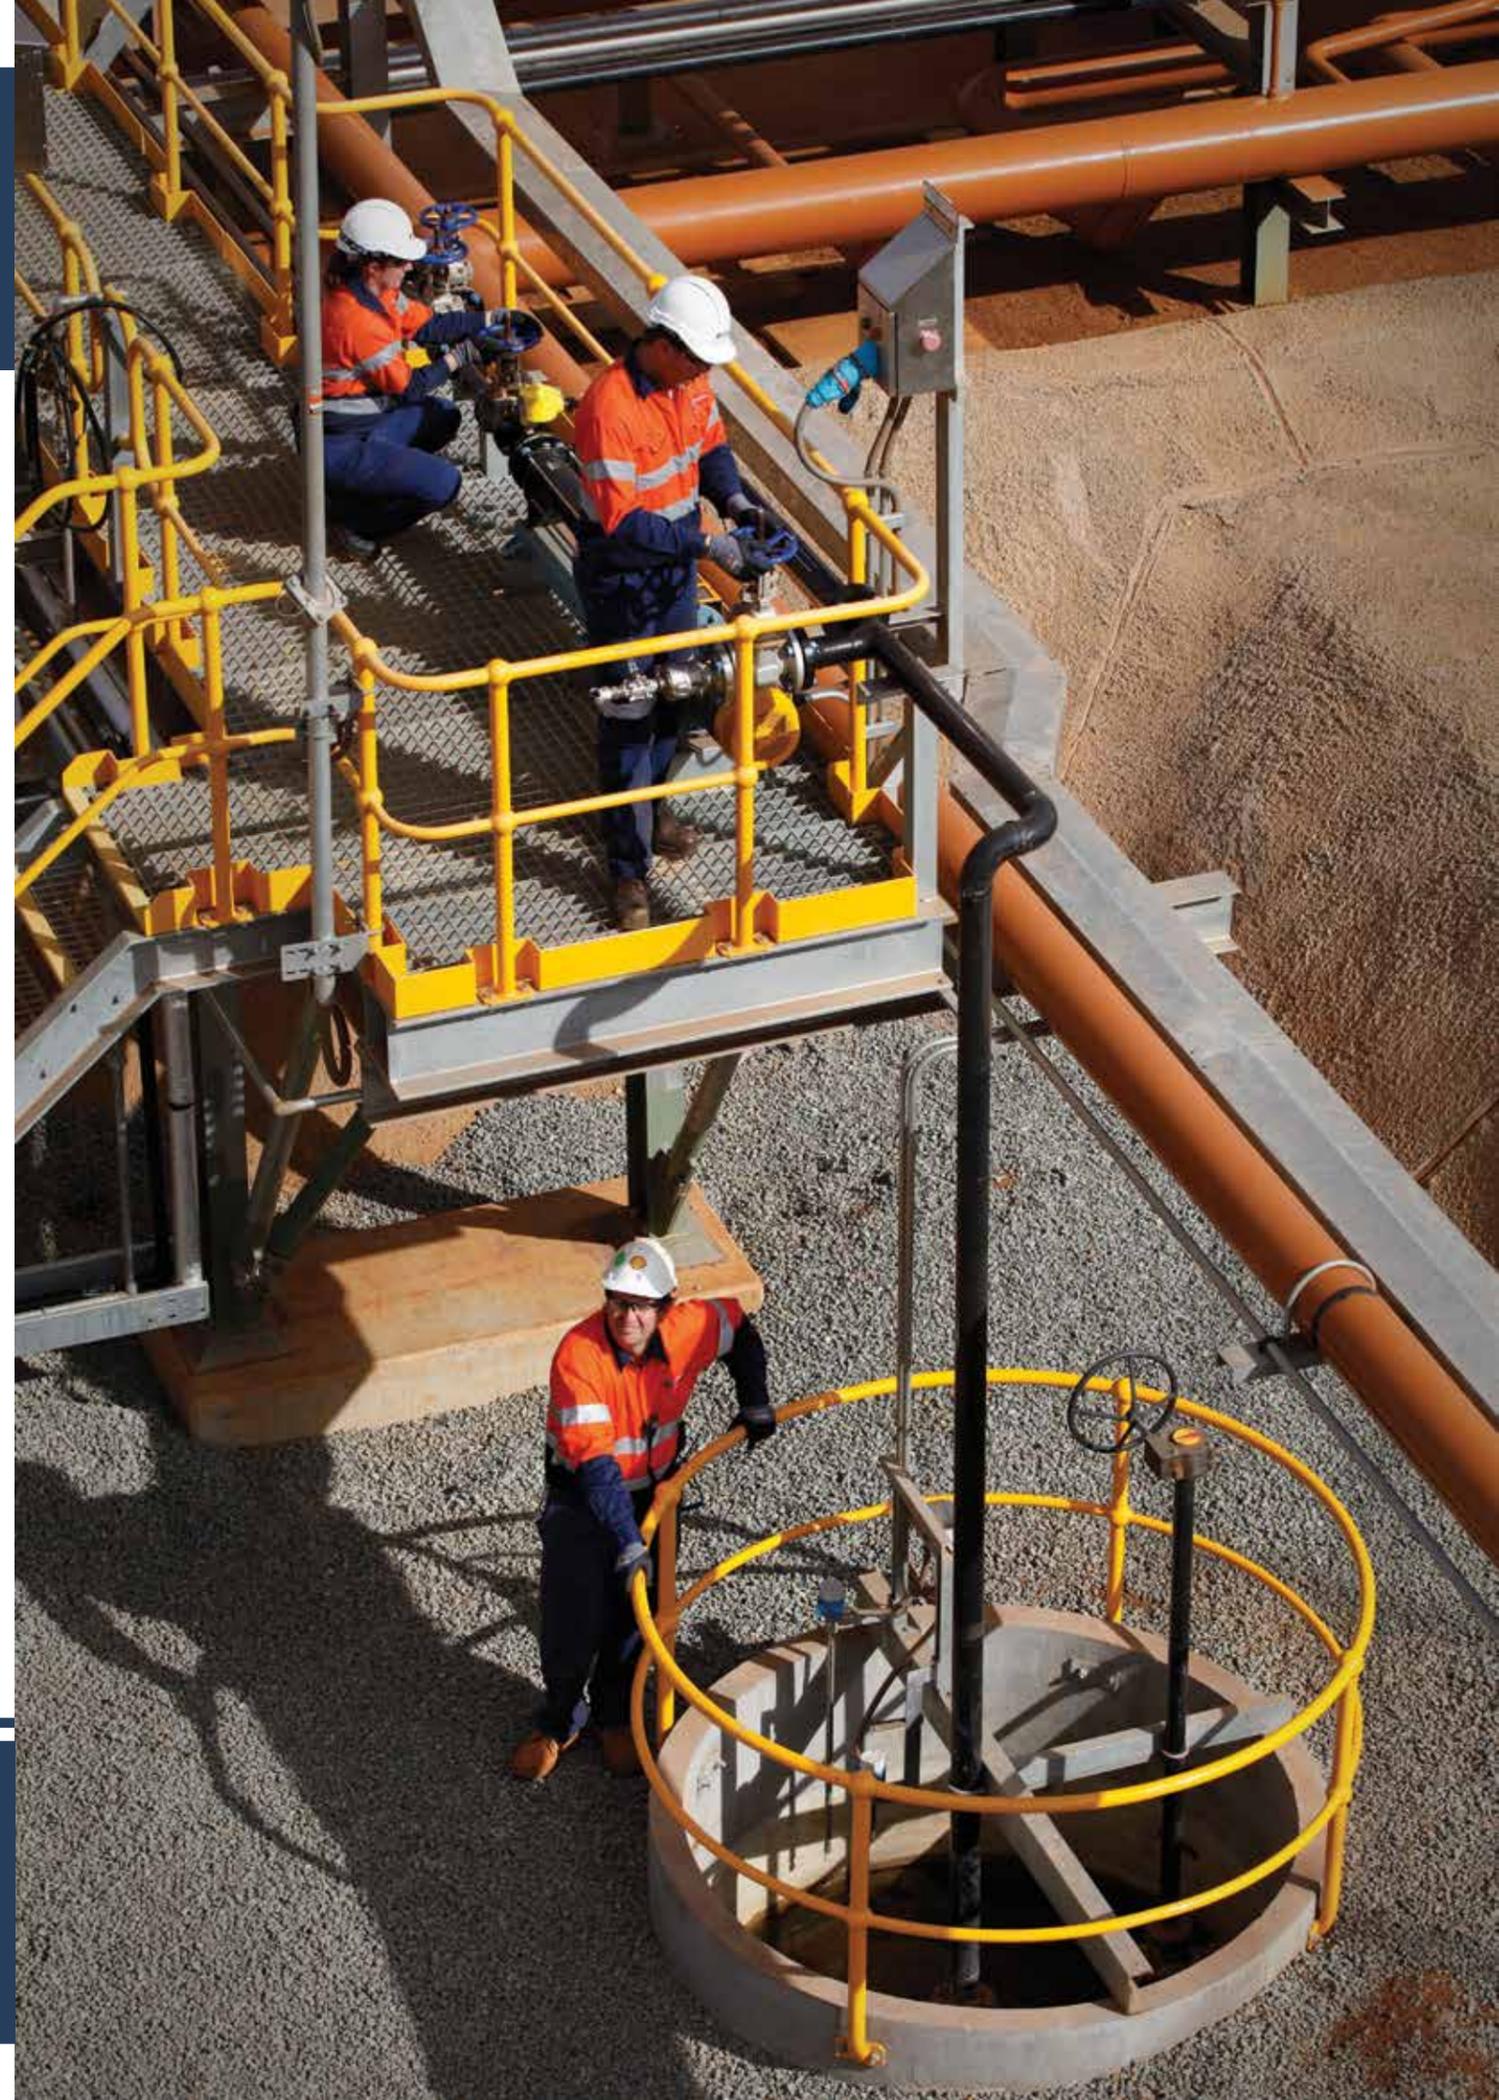

- Facility design and construct
- Periodic and routine maintenance programs
- Facility management and operational support

## Repairs and Maintenance

- Hydraulic repairs and re-fits
- Gearbox rebuilds
- Pump rebuilds
- Reconditioning all types of heavy machinery components

## Facility Management

- Bulk fuel and oil facility management and maintenance
- Highly developed safe systems of work including method statements, quality control documents and JSA's
- Tank inspections, repairs and refurbishment for the petrochemical industry
- Bunkering operations in Geraldton and Dampier
- Tanker discharge, inter-terminal pipeline transfers and associated operations within a bulk fuel distribution terminal
- Design, manufacture and installation of bulk fuel facilities
- Pipeline manufacture and repairs
- Bulk fuel facility demolition
- Supply of wharf and terminal operators at various bulk petroleum and terminal facilities
- Preparation of operational procedures for various terminal facilities
- Pipeline pressure testing, witnessing and certification
- Supervision of major petroleum projects on behalf of Downstream fuel services

GE Group Australia Pty Ltd offers support across a range of industries. Our dedicated team is available 24 hours a day, seven days a week, to minimise your downtime

## Mining

GE Group Australia has an established reputation in the mining industry for a fast and effective response and solution to breakdowns. We have also developed a niche in the design, fabrication and installation of a range of specialist steel structures including walkways, access ladders, storage tanks, pipe supports and repairs.

## Petrochemical

With more than 20 years experience GE Group Australia can manage and maintain the efficient operation of your bulk fuel and oil assets anywhere in Western Australia so you can get on with the job at hand.

We can schedule maintenance programs, testing, repairs and upgrades to ensure your fuel facility always runs efficiently.

Description of Work	Service	Client	Location
Compliance Upgrade Aviation Jet Fuel Storage	Engineering & Construction  Project Management	Rio Tinto Iron Ore	West Angelas, Newman
Bulk Oil Facility Capacity Increase	Engineering & Construction  Project Management	Rio Tinto Iron Ore	Hope Downs, Newman
Tank clean inspection modifications and survey works	Fabrication  Project Management	BP	Geraldton
Tank farm operations and maintenance at West Angelas, Tom Price and Paraburdoo	Facility Management  Maintenance	Shell Company of Australia	Pilbara
Tank farm operations and facility management	Facility Management  Maintenance	Dialog	Karratha
Tank farm operations	Maintenance	Woodside	King Bay Supply Base
Quarterly fuel farm inspections and maintenance	Facility Management  Maintenance	Dampier Salt	Port Hedland
Quarterly fuel farm inspections and maintenance	Facility Management  Maintenance	Mermaid Marine	Dampier
Gantry Slops Project	Fabrication  Engineering & Construction	Shell Company of Australia	Geraldton

## Agriculture

While the resources industry is growing rapidly in the Mid West, the backbone of the region is still agriculture.

- Repairs and maintenance to small and large farming equipment including hydraulic cylinders, augers and pumps
- Onsite repairs
- Concave repairs
- Tail shafts repaired, shortened, manufactured
- On site repairs available after hours
- Preferred GOPP Supplier for machining and fabrication to the agricultural industry

Custom work such as design and manufacture dozer blade to fit Case STX350 4WD tractor

## Marine

GE Group Australia has an established reputation in the marine and fishing industry, specialising in repairs to propeller shafts, skim winches, general repairs and maintenance.

From the smallest to the largest vessel, GE Group Australia can be trusted to deliver a high standard result, on time and on budget.

- Shaft survey alignments
- Bearing repairs
- Repair Winches, Skim winches
- Ability to carry out services on small vessels through to bulk carrier ships
- Engine Alignment
- Trawler Refits

Customised jobs like design, manufacture and commission the only automatic crayfish leg meat remover in Australia

# KEY PERSONNEL

**ROGER WATTS**  
Managing Director

Roger is the founder and Managing Director of GE. He has more than 20 years experience in bulk liquid terminal operations, maintenance and safety. Throughout his career, Roger has led GE Group in its current market leading position. Roger fosters strong relationships with the clients of GE and strongly believes in the creation of a mutually rewarding environment for customers and staff. He is now focussing on future growth which includes acquisitions, new services and benchmarks.

**DEANNE WATTS**  
Petrochemical/Operations Manager

Deanne has a focus on corporate excellence and a strong personal commitment to safety of the GE family. She sets high standards supported by thorough planning and a genuine commitment to achieve outstanding outcomes. She has a strong belief that the success of the business is within its people and the ability to build sustainable customer relationships for the benefit of all parties. She has recently taken on the position of Operations Manager, to effectively manage the smooth running, growth and development of the operations within GE

**ANDREW CONWAY**  
Workshop Manager

Andrew is the make it happen man. He has a wealth of knowledge, is a fantastic team member and inspires us all with his work ethic. He demonstrates his highly developed people and leadership skills through the mentoring of apprentices and excellent customer service.

**SHERYL RATTIGAN**  
Administration/Finance Manager

Sheryl is responsible for keeping us on track in our administration and financial areas. She supports the team by providing enhanced data visibility and facilitating better business decisions. She thrives on her team's financial strategic planning goals, always aiming to ensure GE Group's sustainable growth.

**MARTIN SELLAR**  
Engineer/ Estimator

Martin is GE Group's mechanical engineer and holds a Bachelor of Engineering. He has significantly enhanced the business with his technical knowledge and drawing capabilities. A major strength is keeping calm in the fast paced project environment. Martin was the winner of the Engineers Australia Keith Johnke Medal in 2012.

**ANDREW KILPATRICK (Pinga)**  
Karratha Workshop Manager

Andrew has been part of GE Group for the past seven years and has recently moved into this new management role. His initial focus being to bring the Karratha Workshop up to full operation and sustain its future growth. His in depth knowledge of the industry supports his ability to create products and solutions that exceed our customers' expectations.

**JASON BURROWS (Sharky)**  
Petrochemical Operations Supervisor

Jason has been with GE Group from the start and has extensive experience and knowledge in the petrochemical area and facility management. He is a driven, results orientated supervisor, with a solid commitment to people and their power to achieve great things. Sharky has the skills and experience to substantially expand our Pilbara site operations by achieving our goals of "Operational Excellence".

**MICK SILVERLOCK**  
Pilbara Supervisor

Mick has a vast knowledge of terminal maintenance and operations and has worked on a number of sites throughout WA. Originally based at our North Fremantle operations he now supervises the inland Pilbara operators at Tom Price, Paraburdoo and West Angelas.

**ARNIE WALKER**  
Project Supervisor

Arnie brings a wealth of site knowledge and supervision of projects to his role, he combines this with great customer relations and excellent trouble shooting skills making him a valued part of our team. His extensive industry knowledge has driven the growth of GE Group's client base.

# SAFETY OUR PLEDGE

The safety and well being of employees is given the highest priority and has a bearing on all commercial deal making.

### We believe that:

- No business activity will come before health and safety
- All incidents and injuries are preventable
- Individuals will be trained and equipped to ensure an accident free workplace
- Report all near-misses to supervisor immediately and address at safety meeting/assess possible remedies
- Legal obligations are only the foundation of our health and safety standards

### All employees are required to:

- Ensure that their actions do not cause harm to themselves or other persons through skylarking, failure to follow procedures, failure to report hazards, failure to act in a safe and responsible manner, failure to use PPE etc
- Actively participate in the identification, review and development of health and safety management strategies
- Ensure all accidents, hazards and incidents are reported immediately and health and safety information is accurately reported
- Follow all procedures established to ensure the safety of all employees, contractors and customers

## our commitment

GE Group Australia is committed to providing a safe and healthy work environment.

# MISSION STATEMENT COMPANY CORE VALUES

## VISION

Our vision is to be the company that:

- People want to work for
- Clients want to work with
- And everyone remembers

## VALUES

Each member of GE Group pledges to promote an incident and injury-free culture, excel in what they do and deliver on all of their promises.

GE Group is committed to upholding and instilling

- Honesty and integrity in everything we do
- An incident and injury free culture
- Exceptional customer service
- Delivery that is both on time and on budget

- A quality product without causing harm to the environment
- A high quality employment experience for our staff
- Leadership for continuous improvement
- Innovation in every aspect of our business
- Respect for the diverse members of our onsite and office teams and
- Delivering what we promise.
